PROJECTS

Dosa website

Developed a dynamic online food ordering website using HTML, CSS, and JavaScript. Implemented responsive design for optimal user experience across various devices. Added interactive features such as menu selection, cart management, and order processing to enhance user engagement and convenience.

Animation Project

Designed and developed a responsive car animation website using HTML and CSS. Created engaging animations to demonstrate vehicle movement and interactions. Ensured cross-device compatibility and optimized performance for a seamless user experience across all screen sizes.

Team Photography project

Led a team of 5 in developing a responsive photography website using HTML, CSS, and Bootstrap. Ensured visual appeal and optimized user experience while managing tasks and guiding the team to successful project completion.

Makeup Kit

Developed a makeup kit e-commerce website using the Django framework, integrating HTML, CSS, and JavaScript. Implemented user-friendly features such as product browsing, cart management, and checkout. Ensured responsive design and seamless user experience across various devices.

Portfolio

Designed and developed a responsive portfolio website using HTML and CSS. Showcased projects and skills through a clean, user-friendly layout. Optimized performance for consistent and engaging user experience across desktop and mobile devices.
